PROFESSIONAL PROFILE

As a forward-thinking Software Engineer with a keen eye for innovation, I bring a wealth of experience in leading high-energy teams and delivering exceptional results. Now, I am poised to pivot my skills towards the fast-paced world of web development, with a particular focus on mastering React.js.

WORK EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER, MPHASIS Pvt. Ltd.
JUNE 2021—JULY 2022

I worked as an Associate Software Engineer on PeopleSoft Technology, building, processing, and handling them in the deployment phase. I also worked on MySQL and managed the Tables in the database. I also worked on GitHub.

Software Developer Intern, Omninos Software Solutions
Oct 2022— April 2023

Worked as an Intern on React Js Technology where I learned to make websites with re-usable components. Also worked on different problems and solved them. Also, possess a good understanding of GIT Hub. Worked on live projects too. Also did some projects on a personal level

EDUCATION

B.E./B.Tech., CHANDIGARH UNIVERSITY, Mohali
JUNE 2017 — MAY 2021

Stream: Computer Science Engineering
Specialization: Internet Of Things
CGPA: 7.07
